A number of antenna masts was observed near rail kilometer station 34.5 (reckoned from the BEFLIN-ANHALTER RR station) southwest of ELSHOLZ (N 53/Z 51) (see Annex). The installations seemed to be recently established and was similar to that located in SCHOENEFELD near BEELITZ (N 53/Z 51). Guards and overhead wire connections to the SCHOENEFELD radio station were not observed.

Comment:

The existence of radio stations near ELSHOLZ and SCHOENEFELD was reported for the first time. It is not known whether they are installations of the Soviet Air Force.
